

Graduate Programme 2027: Software Engineer (Python)

 Office: Barcelona · Dubai · Krakow · Lisbon · London · Madrid

 Remote: Poland · Porto · Portugal · Spain · UAE · UK

About Revolut

People deserve more from their money. More visibility, more control, and more freedom. Since 2015, Revolut has been on a mission to deliver just that. Our powerhouse of products — including spending, saving, investing, exchanging, travelling, and more — help our 80+ million customers get more from their money every day.

As we continue our lightning-fast growth, 2 things are essential to our success: our people and our culture. In recognition of our outstanding employee experience, we've been certified as a Great Place to Work™. So far, we have 13,000+ people working around the world, from our offices and remotely, to help us achieve our mission. And we're looking for more brilliant people. People who love building great products, redefining success, and turning the complexity of a chaotic world into the simplicity of a beautiful solution.

About the Graduate Programme

Our Graduate Programme is built for ambitious graduates ready to kick-start their careers in tech. Over this 12-month programme, you'll join our engineering teams, work on real projects, and take on challenges that matter. With structured training, hands-on experience, and guidance from experts, you'll grow your skills, explore different areas, and help shape the future of finance.

Top performers may be offered a full-time role after the programme, giving you the chance to continue your journey at Revolut.

About the role

Our Technology team builds the systems and experiences that keep Revolut moving. From the infrastructure behind our innovative app to the features used by millions of people around the world, they bring sharp thinking, speed, and a focus on meaningful impact to everything they do.

We're looking for Python Engineers who want to build scalable systems, create data pipelines, and work on high-impact projects that power our financial products.

Our stack includes Python 3, SQL, PostgreSQL, Kafka, Airflow, Kubernetes, Docker, GCP, and a TDD approach.

Up to shape what's next in finance? Let's get in touch.

Join us from anywhere

The Graduate Programme is open to international applicants ready to relocate to one of our tech hubs in Poland, Portugal, Spain, the UAE, or the UK. We'll support you with visa assistance, travel costs, and your first month of accommodation (conditions apply). You'll be expected to spend around 3 days per week in the office (where role and location allow).

Key dates

- Applications: open from May 2026
- Recruitment process: July–December 2026
- Programme start: early 2027 (January–June) or late 2027 (July–December)

Roles are filled on a rolling basis, so apply early. You can specify your preferred intake during the recruitment process.

What you'll be doing

- Building APIs that are well-designed and scalable
- Creating data pipelines to support reporting, analytics, and data science
- Working in cross-functional squads to design new data models and flows
- Expanding your knowledge of Python and SQL through real-world projects
- Collaborating with engineers experienced in distributed systems
- Managing tasks, tracking progress, and delivering outcomes
- Sharing updates with global teams and learning from senior engineers
- Using regular feedback to accelerate your development

What you'll need

- A predicted or achieved 2:1 degree (or equivalent grade)
- To be graduating in 2025, 2026, or 2027
- A bachelor's or master's degree in computer science, maths, physics, or a related field
- A portfolio of coding projects or open-source contributions
- Great problem-solving skills
- A proactive, ambitious, and results-driven mindset
- Effective communication and organisational skills
- Fluency in English
- To be comfortable working in a fast-paced, diverse team environment
- Full-time availability from early or late 2027
- The ability to attend a Revolut office in your country of employment at least 3 days per week (this is a hybrid role)

Compensation range

- Krakow: PLN18,400 - PLN18,400 gross monthly*

- Poland: PLN18,400 - PLN18,400 gross monthly*
- Other locations: Compensation will be discussed during the interview process

*Final compensation will be determined based on the candidate's qualifications, skills, and previous experience

Building a global financial super app isn't enough. Our Revoluters are a priority, and that's why in 2021 we launched our inaugural D&I Framework, designed to help us thrive and grow everyday. We're not just doing this because it's the right thing to do. We're doing it because we know that seeking out diverse talent and creating an inclusive workplace is the way to create exceptional, innovative products and services for our customers. That's why we encourage applications from people with diverse backgrounds and experiences to join this multicultural, hard-working team.

Important notice for candidates:

Job scams are on the rise. Please keep these guidelines in mind when applying for any open roles.

• ***Only apply through official Revolut channels.*** We don't use any third-party services or platforms for our recruitment.

• ***Always double-check the emails you receive.*** Make sure all communications are being done through official Revolut emails, with an @revolut.com domain.

We won't ask for payment or personal financial information during the hiring process. If anyone does ask you for this, it's a scam. Report it immediately.

By submitting this application, I confirm that all the information given by me in this application for employment and any additional documents attached hereto are true to the best of my knowledge and that I have not wilfully suppressed any material fact. I confirm I have disclosed if applicable any previous employment with Revolut. I accept that if any of the information given by me in this application is in any way false or incorrect, my application may be rejected, any offer of employment may be withdrawn or my employment with Revolut may be terminated summarily or I may be dismissed. By submitting this application, I agree that my personal data will be processed in accordance with Revolut's [Candidate Privacy Notice](#)
